

Client:

Wood County Planning Commission
One Courthouse Square, 5th Floor
Bowling Green, OH 43402
Dave Steiner, Director

Key Elements:

- 2-year planning process, included extensive steering committee meetings and public meetings around Wood County
- GIS and mapping
- Public input, feedback and review

Wood County Comprehensive Plan

As Sandusky County's western partner in the region, Wood County finalized its first comprehensive plan since 1958 in the fall of 1998. The Plan consisted of analyzing trends and conditions that have assisted the county in experiencing vast growth since the completion of its last Plan (1974), and future growth areas were developed based upon these trends.

Other components of this Plan included: Population and demographics, Quality of Life (to include community facilities and services, historic preservation, education, and housing), Economic Development, Physical Constraints, Land Use, Infrastructure, and Planning Tools.
